

Class Six Newsletter

September 2017

Dear Parents and Guardians,

This term our new class topic is called, "The Great Outdoors!"

In the first part of this topic we will be looking particularly at different environments and the life processes of plants and animals. Later in the term we will be visiting Wentworth Farm (at the garden centre), to take part in an animal workshop where we will look at some rarer species of animal and find out how they are adapted to their environments - letters to follow soon!

As you already know, we are working really hard in school to promote healthy lifestyles. Class 6 have already made a brilliant start with this by doing 'The Daily Mile'. Nobody is expected to run for a whole mile, however we have some very ambitious pupils who are determined to try! Every single member of class 6 has done brilliantly so far.

PE - will take place on **Tuesday** and **Wednesday** afternoons. However, it is better to leave kit in school for the week as suitable footwear is needed to do our daily mile.

Homework - Homework will be given on Thursday and is to be handed in on Monday morning. Also children still benefit from reading with an adult every day as this helps them to become more confident, fluent readers and supports the work they do in school.

Punctuality - A polite reminder to everyone - most of our class arrive on time, but we do have a few late comers. School starts at **8:50am** and we work every minute of the day. Children who arrive late miss our morning task.

Thank you again for your support.

Mrs Britton and Mrs Slater

Class Teacher and Teaching Assistant

Y6 SATS

The Y6 members of our class will take their SATS tests in May. Dates for the tests will be sent out soon, as will details of booster classes.

A FREE BREAKFAST WILL BE PROVIDED FOR ALL BOOSTER CLASSES!

Thank you for your Support!

All the children have returned to school with a pleasing attitude, ready to get on, and with smart new uniform. They have made an excellent start in Class Six!
